

HALF-CELL BIFACIAL MODULE

TYPE: STPXXXS - B72/Pnh+

POWER OUTPUT

435-455W

MAX EFFICIENCY

20.9%

Features

High module conversion efficiency

Module efficiency up to 20.9% achieved through advanced cell technology and manufacturing process

Lower operating temperature

Lower operating temperature and temperature coefficient increases the power output

Suntech current sorting process

Up to 2% power loss caused by current mismatch could be diminished by current sorting technique to maximize system power output

Extended wind and snow load tests

Module certified to withstand extreme wind (2400 Pascal) and snow loads (5400 Pascal) *

Excellent weak light performance

More power output in weak light condition, such as cloudy, morning and sunset

Withstanding harsh environment

Reliable quality leads to a better sustainability even in harsh environment like desert, farm and coastline

Industry-leading Warranty **

Certifications and Standards
